

Read All Instructions Before Using.

DESCRIPTION AND BATTERY INSTALLATION

Keep your head and body cool by cooling your neck. If you've ever felt the relief of draping a cold towel across your neck or forehead on a summer day, then you've experienced the concept behind this Personal Cooling System. Anyone too active to stay away from the heat will enjoy the comfort of the Coolware™ Personal Cooling System.

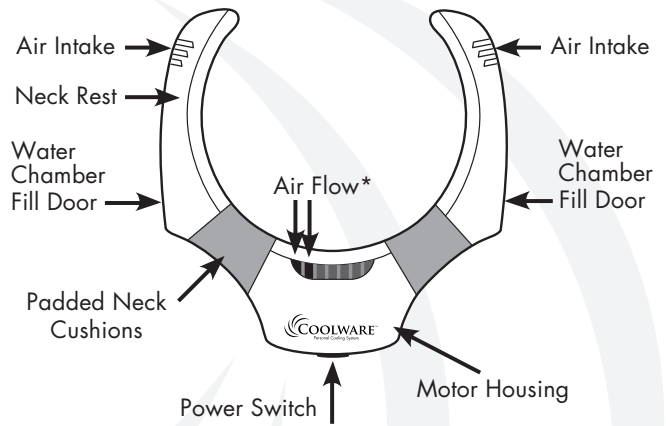

One AA alkaline battery is included. To install the battery, open the battery compartment door by pulling the release tab out using a finger or coin (see inset).

Install the battery as shown by the diagram inside the battery compartment. Close compartment door.

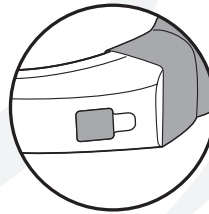

OPERATION

- Locate the fill door on one side of the unit and gently pull open.
- Add water until chamber is full. Close the door.
- Repeat on the other side.
- After filling, hold the unit by the fan section and shake vigorously until water stops coming out the air intakes. The unit is now ready to use.
- Slide the power switch to the HI position. If the unit becomes too cold for comfortable use, switch to the LO position.
- Place the Coolware™ Personal Cooling System around your neck. The motor housing should be at the back of the neck with the cooling port facing upward.
- DO NOT USE if this unit is too tight or restricts movement when worn.
- Refill the water chamber after 2-4 hours of use or as needed.
- For the first use and occasionally thereafter, add a drop of liquid detergent to the water chamber to enhance operation. Use distilled water for best results.

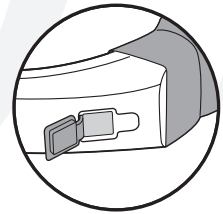

*SPECIAL NOTE:

Air flows only from the two slots indicated by the arrows. The other five slots are not intended to operate.

Fill Door (closed)

Fill Door (open)

PRECAUTIONS AND CARE

- This unit will overflow with water while it is being filled. Hold the unit over a water-safe area when filling.
- Use caution when wearing any device that may interfere with your ability to drive or operate machinery safely.
- Discontinue use if a skin rash or irritation develops from wearing this product.
- When engaged in activities which may cause the unit to fall or dislodge, or around appliances or machinery, the user may wish to remove the unit.
- Do not use this product in any activity that may cause personal injury from impact or accident.
- Do not use harsh solvents on any part of this product. Clean only with water and a mild detergent or liquid soap.
- Do not fill the unit with any liquid other than clean water (distilled water is recommended).
- Works best in humidity lower than 70%.

WARRANTY INFORMATION

This product is guaranteed against defects under normal use for one year from the date of purchase. If your product fails to perform satisfactorily because of defects in material or workmanship, it will be repaired or replaced free of charge.

Experience has shown that with a product that uses batteries, many of the problems thought to be product defects are simply caused by weak batteries. To save any unnecessary inconvenience, we encourage you to try replacement batteries before returning product.

Please feel free to call customer service at 866-753-3837 if you have any questions.

Thank you for your purchase of the Coolware™ Personal Cooling System.
