Congratulations!

You have purchased a product produced under the highest quality control standards. Should you have any questions, or in the unlikely event that you should have a problem or are missing any parts, it is not necessary to return it.

Call **1-800-828-8944** to speak with a customer service representative who will help you to quickly resolve the problem to your full satisfaction.

Attaching Lamp to Wall

If you desire, the lamp can be attached to a wall by hanging it on the small hole provided on the bottom. **CAUTION** Injury to persons and damage to the lamp and/or mounting surface may result if the lamp is pulled from the surface. To reduce the likelihood of such injury or damage, mount only on a surface that is mechanically sound.

ASSEMBLY INSTRUCTIONS

To attach the mirror hold the round circle ring of the mirror part and gently push it onto the unit until it stops.

The ring is tight but if it seems too tight, try to push on one side at a time or heat the ring part of the mirror holder with very warm water for a few minutes. This will temporarily soften the plastic to make it easier to slip on. Over time it stretches.
