GETTING STARTED

GETTING STARTED (CONT.)

Read these instructions fully prior to using the device. To activate the UV light treatment, turn the base upside down and open the battery compartment by pulling on the tab. Remove the clear plastic insulator from the batteries. Replace the battery cover and push until you hear a click. There are 3 LR44 batteries included to operate the UV light treatment.

PART IDENTIFICATION

1. Sandpaper Grinder: Quickly grinds the nail edge into your desired shape and shortens thick nails easily
2. Chromium Corundum Grinder: Smooths, shines and grinds down the edge of nails
3. White Corundum Grinder (cone): Polishes the nail surface for a smoother surface
4. Carborundum Grinder: Removes the dead skin cells around the nail edge, removes calluses easily, and can be used to push back nail cuticle
5. Felt Grinder: Polishes nails for a shiny surface & allows for easier application of nail polish
6. Precision Handle
7. UV Storage Stand

ATTACHMENT USES

Sandpaper Grinder

Place the grinder perpendicular to the end of your nail and move it from the outside towards the center of the nail.

Chromium Corundum grinder

Place grinder parallel to the surface of your nail and move it gently all over the nail.

White Corundum Grinder (cone)

Place the head of the grinder perpendicular to the end of your nail and move it from the outside towards the center of the nail.

Carborundum Grinder

Carefully move the tip of the grinder around the edge of the nail.

Felt Grinder

Move the cone over the surface of the nail to remove dust. Use the tip of the cone to reach the corners of the nail.
